Overview

50 Word Product Description

The Carbide Series SPEC-OMEGA is a mid-tower PC case with striking angular looks and unique tempered glass front and side panels. An integrated front-panel white LED light strip and white LED-lit 120mm fan add bright illumination and dramatic styling, while Direct Airflow Path design delivers cool air straight to your hottest components. Built to show off your system and turn heads, this is the ultimate SPEC.

Overview

100 Word Product Description

The Carbide Series SPEC-OMEGA is a mid-tower PC case with striking angular looks, integrated white LED lighting, and unique tempered glass front and side panels that ensure your system will always stand out. Two included CORSAIR SP120L cooling fans provide ample air flow, with Direct Airflow Path design delivers cool air straight to your hottest components. Upgrade your cooling with room for up to a 360mm liquid cooling radiator in the front and up to six fan mounts. With an internal layout designed to make your build beautiful inside and out, you'll find a wealth of cable tie-downs, routing holes and grommets. Built to show off your system and turn heads, this is the ultimate SPEC.

Features and Benefits

- With its unique asymmetrical, angular design, SPEC-OMEGA boasts a bold, dynamic look.
- Tempered glass side and front panels put your system on display unlike any other case.
- Integrated front-panel white LED light strip and white LED-lit 120mm cooling fan add bright illumination and
- Two included CORSAIR SP120L 120mm fans and Direct Airflow Path cooling layout.
- Cable routing cutouts and tie downs keep your system’s interior looking clean and uncluttered.
- Front 360mm radiator compatibility for massive liquid cooling expansion options.
- Tool-free 3.5” and 2.5” drive installation, so you spend less time building your PC, and more time enjoying it.
- Native USB 3.0 and SSD support for modern builds.

Style 2

- **Unmistakable Style:** Ensure your system will always stand out – asymmetrical, angular design gives SPEC-OMEGA a bold, unique and dynamic look.
- **Tempered Glass to Show off your Hardware:** Why hide your system? Tempered glass side and front panels put your system on display unlike any other case.
- **Built-in LED Lighting:** Integrated front-panel white LED light strip and white LED-lit 120mm cooling fan add bright illumination and a dramatic styling.
- **Two Included 120mm Fans and Direct Airflow Path:** Keep your system cool inside and out with two CORSAIR
- **Cable Routing Cutouts and Tie Downs:** With your system on display, SPEC OMEGA makes it easy to keep your cable routing neat, tidy, and out of the airflow path for better cooling.
- **Front 360mm Radiator Compatibility:** Upgrade to the power of liquid cooling for your CPU or GPU with up to a 360mm Hydro Series cooler.
- **Easy to Build:** Tool-free drive installation and side panel removal mean you can spend less time building your PC and more time enjoying it.
