

Embargo Date	June 13 th , 2019
Product Full Name / Title	CORSAIR NIGHTSWORD RGB, Performance Tunable FPS/MOBA Gaming Mouse, Black, Backlit RGB LED, 18000 DPI, Optical
Product Short Name / Title	NIGHTSWORD RGB Gaming Mouse
Product Imagery	PNG PSD
Documentation	Quick Start Guide

Product Video	N/A
----------------------	-----

100-Word Product Description	The CORSAIR NIGHTSWORD RGB Performance Tunable Gaming Mouse is equipped with a cutting-edge 18,000 DPI optical sensor, sophisticated weight calibration and a real-time center of gravity detection system. A comfortable contoured design, ten programmable buttons, and ultra-durable Omron switches deliver first-rate gaming performance. Two sets of weights and six mounting locations allow you to adjust weight between 119g and 141g with over 100 different configurations. Use CORSAIR iCUE software to enable real-time smart weight tuning, control dynamic four-zone RGB lighting, create custom macros, and calibrate your mouse to your playing surface. And with onboard profile storage to take your settings with you, NIGHTSWORD RGB makes for perfectly calibrated gaming anywhere, anytime.
-------------------------------------	---

50-Word Product Description	The CORSAIR NIGHTSWORD RGB Performance Tunable Gaming Mouse is equipped with a cutting-edge 18,000 DPI optical sensor, sophisticated weight calibration and a real-time center of gravity detection system. A contoured design and ten programmable buttons offer both comfort and customization, while two sets of weights and six mounting locations allow you to adjust weight between 119g and 141g with over 100 different configurations.
------------------------------------	---

25-Word Product Description	The CORSAIR NIGHTSWORD RGB Performance Tunable Gaming Mouse is equipped with a cutting-edge 18,000 DPI optical sensor, sophisticated weight calibration and a real-time center of gravity detection system.
------------------------------------	---

Product Features (Style 1)	<ul style="list-style-type: none"> • CORSAIR-exclusive software automatically detects the center of gravity in real time, allowing you to adjust weight between 119g and 141g and fine-tune balance to perfectly fit your grip. • A custom Pixart PMW3391 native 18,000 DPI optical sensor, adjustable in 1 DPI resolution steps, gives you total sensitivity customization and ultra-accurate tracking. • Built with a comfortable contoured shape that naturally fits your hand, with high-performance rubber grips inspired by pro sports equipment. • Ten fully programmable buttons let you customize your gaming, with the in-game advantage of powerful macros and key remaps. • Includes two sets of weights with six mounting locations, offering 120 different weight and balance configurations for a precisely calibrated gaming experience. • Ultra-durable Omron switches rated for more than 50 million clicks. • Dynamic, four-zone RGB backlighting with dozens of presets and effects and near-limitless customization. • Powerful CORSAIR iCUE software enables real-time smart weight tuning, dynamic RGB lighting control, sophisticated macro programming and full-system lighting synchronization, compatible with both Windows and macOS. • Onboard storage with hardware macro playback lets you take your lighting and macro profiles to any PC. • Surface calibration utility automatically tailors responsiveness and precision based on your individual playing surface.
-----------------------------------	---

Product Features (Style 2)	<ul style="list-style-type: none"> • Smart Tunable Weight System: CORSAIR-exclusive software automatically detects the mouse's center of gravity in real time, allowing you to adjust weight between 119g and 141g and fine-tune balance to perfectly fit your grip. • CORSAIR'S Most Advanced Optical Sensor Yet: A custom Pixart PMW3391 native 18,000 DPI optical sensor, adjustable in 1 DPI resolution steps, gives you total sensitivity customization and ultra-accurate tracking. • Professional Comfort: Built with a contoured shape that naturally fits your hand, with high-performance rubber grips inspired by pro sports equipment. • Ten Fully Programmable Buttons: Customize your gaming with the in-game advantage of powerful macros and key remaps. • Precise Weight Calibration: Two sets of weights and six mounting locations offer 120 different weight and balance configurations. • Ultra-Durable Omron Switches: Rated for more than 50 million clicks. • Dynamic, Four-Zone RGB Backlighting: Choose from dozens of presets and effects with near-limitless customization. • Intelligent Control, Unlimited Possibilities: Powerful CORSAIR iCUE software enables real-time smart weight tuning, dynamic RGB lighting control, sophisticated macro programming and full-system lighting synchronization, compatible with both Windows and macOS. • Onboard Profile Storage: Take your settings to any PC with hardware macro playback and lighting control. • Surface Calibration Utility: Automatically tailor your mouse's responsiveness and precision based on your individual playing surface.
