Overview

100 Word Product Description

The CORSAIR iCUE 7000X RGB full-tower ATX case puts your build on display behind three tempered glass panels. CORSAIR RapidRoute cable management easily keeps your cables hidden from sight, while a massive interior enables a multitude of cooling options, including room for up to three simultaneous 360mm radiators and customizable side fan mounts that accommodate up to a 420mm radiator. Four included CORSAIR SP140 RGB ELITE fans deliver amazing lighting and concentrated airflow, controlled by an included iCUE COMMANDER CORE XT. Show off your components behind a tool-free tempered glass panel and add your own personal touch with a customizable windowed PSU shroud complete with a three-slot vertical GPU mount. With room for up to ten storage drives, a front I/O panel including a USB Type-C port and four USB 3.0 ports, and easy-access hinged side doors, you can build your magnum opus in the 7000X RGB.

Features and Benefits

Style 1

- Build in full view with the 7000X RGB, showcasing your system behind three gorgeous tempered glass panels while making it easy to build and cool thanks to clever cable management and a spacious interior.
- The CORSAIR RapidRoute cable management system makes it simple and fast to route your major cables through a single hidden channel, with an easy-access hinged door and a roomy 30mm of space behind the motherboard for all of your cables.
- Includes four 140mm CORSAIR SP RGB ELITE PWM fans with eight individually addressable RGB LEDs per fan, utilizing AirGuide technology to concentrate airflow and enhance cooling.
- An included CORSAIR iCUE COMMANDER CORE XT Controller, CORSAIR iCUE software, and PWM fan repeater enable smart RGB and fan speed control out of the box.
- A massive interior lets you fit up to 12x 120mm or 7x 140mm cooling fans, or install multiple radiators including 3x simultaneous 360mm or 2x simultaneous 420mm for extreme cooling.
- A motherboard tray with customizable fan mounts allows you to side-mount up to 4x 120mm fans or up to a 420mm radiator, opening up a new world of cooling options.
- Put the spotlight on your graphics card with a three-slot vertical GPU mount on the PSU shroud, big enough for today's most powerful graphics cards.
- A fully equipped front I/O panel includes a USB 3.1 Type-C Port, 4x USB 3.0 ports, and a combination audio/microphone jack.
- Holds all the storage you'll need for years, thanks to 6x combo 2.5in / 3.5in drive trays and 4x 2.5in SSD mounts.
- A windowed PSU shroud is fully customizable for your own personalized inserts, perfect for creating a jaw-dropping mod.
- Two tool-free hinged side panels with simple and secure snap-on attachment, along with removable front and roof panels, enable easy access to your components.
