Overview

25 Word Product Description

The CORSAIR 5000T LX RGB features a bold design with integrated Aurora RGB Light Strips, iCUE LINK LX120 RGB fans, excellent cooling, and builder-friendly features for creating a stunning, high-performance PC.

Overview

50 Word Product Description

The CORSAIR 5000T LX RGB impresses with its bold design, integrating Aurora RGB Light Strips, iCUE LINK LX120 RGB fans, and an iCUE LINK System Hub. Its cable-free aesthetic supports reverse connector motherboards, offering excellent cooling and builder-friendly features, enabling you to build an exceptional PC that's as stunning as it is capable.

Overview

100 Word Product Description

The CORSAIR 5000T LX RGB stands out from the crowd with its bold design, immersing you in the revolutionary iCUE LINK ecosystem through its integrated Aurora RGB Light Strips, iCUE LINK LX120 RGB fans, and an iCUE LINK System Hub. The clean, cable-free look is compatible with ASUS BTF, MSI Project Zero, and Gigabyte Project Stealth motherboards. Removable front and roof airflow panels, along with a spacious interior, offer excellent cooling potential, while builder-friendly features like RapidRoute, tool-free hinged side panels, and a modern front panel I/O make it easy to build a PC that blends eye-catching style with peak performance.

Features

Style 1

- Sleek, uniquely contoured chassis
- 3x LX120 RGB fans and iCUE LINK System Hub included
- Integrated Aurora RGB Light Strips for smoothly diffused lighting
- Compatible with reverse connection motherboards
- Removable mesh front and roof high airflow panels
- Fits up to 10x 120mm and multiple 360mm radiators
- Motherboard tray offers side-mounted fan and radiator options
- RapidRoute Cable Management System for simple and effective cable routing
- Innovative, builder-friendly features for easy buildability
- Support for up to 7x 2.5in SSDs or 3x 3.5in HDDs
- Modern front I/O panel including high-speed USB 3.2 Gen-2 Type-C port

- Two tool-free hinged side panels for easy access

Style 2

- **Turn Heads** - The 5000T LX RGB makes a striking impression with its integrated Aurora RGB Light Strips and sleek, contoured chassis, while its builder-friendly features elevate your build.
- **iCUE LINK LX120 RGB Fans** - Your iCUE LINK-powered system starts with an included System Hub and three pre-installed LX120 RGB fans for excellent cooling and vibrant lighting.
- **Smoothly Diffused RGB Lighting** - The ultra-bright Aurora Light Strips built into the case diffuse your lighting without any visible hotspots for a smooth, radiant glow.
- **Compatible with Reverse Connection Motherboards** - Validated for use with ASUS BTF, MSI Project Zero, and Gigabyte Project Stealth motherboards featuring connections on the back of the board, so your view isn't spoiled by cables.
- **Removable Front and Roof Airflow Panels** - Mesh panels are optimized for high airflow with a unique design that maximizes venting, easily removable for quick access.
- **Huge Cooling Potential** - The spacious interior accommodates up to 10x 120mm or 4x 140mm cooling fans, as well as multiple 60mm-thick radiators, including up to a 360mm in front or side and a 360mm push/pull in the roof.
- **Motherboard Tray with Customizable Fan Mounts** - Side-mounting options for fans and radiators give you more flexibility to design a build with cooling tailored to your performance needs.
- **CORSAIR RapidRoute Cable Management System** - Route your major cables quickly and easily through a single hidden channel, with a roomy 30mm of space behind the motherboard.
- **Builder-Friendly Features** - A range of CORSAIR innovations enhances the building experience, including vertical mounting support without extra brackets, one-twist Quikturn screws, flexible doubleshot grommets, and external cutouts for cable management.
- **All the Storage You Need** - Two combo drive trays and three SSD mounts enable multiple SSD and HDD combinations, up to 7x total 2.5in SSDs or 3x 3.5in HDDs.
- **Two Tool-Free Hinged Side Panels** - Enjoy easy access with one hinged tempered glass panel that shows off your system, and one hinged steel panel on the other side.
