100 Word Product Description

The CORSAIR AF120 ELITE High-Performance 120mm PWM Fluid Dynamic Bearing Fan – White delivers PWM-controlled fan speeds from 400 RPM up to 1,850 RPM for powerful cooling, near-silent operation, and exceptional durability. With a low-noise design, the AF120 ELITE spins as quietly as 31.5 dBA, while CORSAIR AirGuide technology with anti-vortex vanes channels airflow to concentrate your cooling. The AF120 ELITE’s fluid dynamic bearing ensures exceptional durability and reliable cooling performance while pushing up to 59.1 CFM of air with 1.93mm-H₂O of static pressure even at full speed. Support for 0 RPM PWM signals enables the fan to stop completely, eliminating noise entirely.

Features and Benefits

Style 1

- CORSAIR AirGuide technology utilizes anti-vortex vanes to channel concentrated airflow, improving cooling whether used as intake, exhaust, or mounted to a liquid cooling radiator or heatsink.
- A fluid dynamic bearing reduces friction with lubricant between the shaft and bearing, ensuring exceptional durability and minimal noise.
- A 120mm fan blade with low-noise design pushes air without pushing the decibels, spinning as quietly as 31.5 dBA.
- Keep your system cool with powerful PWM-controlled fan speeds from 400 RPM up to 1,850 RPM, pushing up to 59.1 CFM of air with 1.93mm-H₂O of static pressure.
- Supports Zero RPM mode to stop the fan entirely when sent a 0 RPM PWM signal, completely eliminating fan noise.
- Universal 120mm sizing fits in case fan mounts, radiators, heatsinks, and more.

Style 2

- **CORSAIR AirGuide Technology:** Utilizes anti-vortex vanes to channel concentrated airflow and improve cooling, whether used as intake, exhaust, or mounted to a liquid cooling radiator or heatsink.
- **Fluid Dynamic Bearing:** Lubricant between the shaft and bearing greatly reduces friction, ensuring exceptional durability and minimal noise.
- **Push Air Without Pushing the Decibels:** A low-noise 120mm fan blade spins as quietly as 31.5 dBA.
- **Keep Your System Cool:** Powerful PWM-controlled fan speeds from 400 RPM up to 1,850 RPM, pushing up to 59.1 CFM of air with 1.93mm-H₂O of static pressure.
- **Zero RPM Mode Support:** Stops the fan entirely when sent a 0 RPM PWM signal, completely eliminating fan noise.
- **Universal 120mm Sizing:** Fits in case fan mounts, radiators, heatsinks, and more.
