e.Adaptive Sync	NVIDIA® G-SYNC compatible and AMD FreeSync™ Premium Certified
f.Color Space	99% sRGB / 88% AdobeRGB
g.Add' 1. Marketing	Control monitor settings from iCUE software

Unique Selling Points

Style 1

- The CORSAIR XENEON 315QHD165 is built from the ground up by the PC experts at CORSAIR, incorporating the stunning design, brilliant display, and the latest technology that gamers and creators demand.
- Experience the beauty of an ultra-slim 32-inch, QHD (2560 x 1440) resolution display (93PPI) that showcases a stunning 16:9 cinematic aspect ratio. Enjoy an immersive viewing experience with a thin micro-bezel design.
- Leverage the advanced IPS technology to optimize display settings that delivers exceptional performance and quality. Achieve an ideal equilibrium between work and entertainment by harnessing the full potential of IPS technology.
- Indulge in the ultimate gaming experience with an impressive 165Hz refresh rate that ensures smooth and fluid visuals. The low 1ms MPRT response time guarantees an excellent level of responsiveness, resists motion blur, and keeps up with the high frame rates produced by the latest graphics cards, allowing you to enjoy fast-paced action and see every frame your PC can output.
- Adaptive Sync Technology helps synchronize visuals with your graphics card for smooth images, less screen tearing, and low input latency.
- Multiple connection options include 2x HDMI 2.0 ports, 1x DP 1.4 port, and 2-port USB 3.0 Type-A hub provides easy connectivity for your keyboard and mouse or other devices.
- Easy ergonomics offer screen tilt from -5° to 20°, 110mm of adjustable height
- Compatible with 100mm x 100mm VESA mounts for the flexibility to mount to a wall or arm.
- Integrates with CORSAIR iCUE software to save your personalized presets and customize on-screen controls.
- A sophisticated burn-in prevention system ensures a flawless image even after extended UI or OS use, with a three-year Zero Burn-In and Zero Dead Pixel Warranty.

Style 2

- **Built for Gamers and Creators:** The XENEON is built from the ground up by the PC experts at CORSAIR, incorporating the stunning design, brilliant display, and the latest technology that power users demand.
- **Ultra-Slim 32-Inch QHD Screen:** Experience the beauty of an ultra-slim 32-inch, QHD (2560 x 1440) resolution display (93PPI) that showcases a stunning 16:9 cinematic aspect ratio. Enjoy an immersive viewing experience with a thin micro-bezel design.
- **IPS Panel:** Leverage the advanced IPS technology to optimize display settings that delivers exceptional performance and quality. Achieve an ideal equilibrium between work and entertainment by harnessing the full potential of IPS technology.
- **Up to 165Hz Refresh Rate with 1ms Response Time:** Indulge in the ultimate gaming experience with an impressive 165Hz refresh rate that ensures smooth and fluid visuals. The low 1ms MPRT response time guarantees an excellent level of responsiveness, resists motion blur, and keeps up with the high frame rates produced by the latest graphics cards, allowing you to enjoy fast-paced action and see every frame your PC can output.
- **Adaptive Sync Technology:** Helps synchronize visuals with your graphics card for smooth images, less screen tearing, and low input latency.
- **High Dynamic Range Colors and Contrast:** Delivers a wide brightness range and color gamut result in eye-catching, rich images with more detail in the darkest and brightest scenes
- **Multiple connection options:** Include 2x HDMI 2.0 ports, 1x DP 1.4 port, and 2-port USB 3.0 Type-A hub provides easy connectivity for your keyboard and mouse or other devices.
- **Easy Ergonomics:** Offers screen tilt from -5° to 20°, 110mm of adjustable height
- **100mm x 100mm VESA Mount Compatible:** For the flexibility to mount to a wall or arm.

- **CORSAIR iCUE Software Integration:** Save your personalized presets and customize on-screen controls.
