POSM One Liner	Wireless Haptic Gaming Headset for Ultimate Gaming Immersion
Razer.com short description	Wireless Gaming Headset with Haptic Technology
<b>AMAZON A+ CONTENT</b>	
Intro (300 characters)	To reach the ultimate depths of immersion, one must dive beyond sight and sound. Unlock a third sense for gaming with the Razer Kraken V3 Pro—a wireless haptic PC gaming headset powered by Razer HyperSense. With the ability to feel what you hear, gaming has never felt this intense or real.
#1 USP Subline	<b>Razer HyperSense</b> For Touch-sensory Feedback and Heightened Immersion
#1 Text (200 char limit)	By converting sound signals into vibrations in real time, the headset allows you to physically feel the effects of in-game sounds as they happen—like you were actually in the world itself.
#2 USP (50 characters) + subline	<b>Razer™ TriForce Titanium 50mm Drivers</b> For Powerful, Lifelike Audio
#2 Text (200 characters)	Our patented 3-part driver design pushes out exceptional highs, mids and lows that doesn't muddy the sound, providing a more dynamic listening experience for deeper immersion.
#3 USP (50 characters) + subline	<b>THX Spatial Audio</b> For Realistic Positional Sound
#3 Text (200 characters)	With our advanced 7.1 surround sound, enjoy true-to-life acoustics that optimizes your game's sound design so you can hear everything as if you were right in the middle of it all.

#4 USP (50 characters) + subline	<b>Razer™ HyperSpeed Wireless Technology</b> For a Seamless Immersive Experience
#4 Text (200 characters)	The headset's industry-leading 2.4GHz wireless connection ensures lossless, low-latency audio that syncs perfectly with game visuals, so you'll never experience a break in immersion.
#5 USP (50 characters) + subline	<b>Hybrid Fabric and Leatherette Memory Foam Cushions</b> For All-Day Comfort Optimized for Haptics
#5 Text (200 characters)	The snug, close-fitting earcups not only provide superior sound isolation and comfort, but also allow you to feel the full haptic feedback from its drivers for full-blown immersion.
#6 USP (50 characters) + subline	<b>Detachable Razer™ HyperClear Supercardioid Mic</b> for Crystal-clear Voice Capture When Needed
#6 Text (200 characters)	Ensure you're heard loud and clear with a detachable mic that's fine-tuned to suppress background noise for enhanced voice capture during gaming.

First-time Synapse 3 user log-in  (FOR RELEVANT PRODUCTS ONLY)	<p>Congratulations on getting your Razer Kraken V3 Pro connected. You can now maximize your gaming immersion with the following features:</p> <ul style="list-style-type: none"> <li>• Fine-tune the intensity level of Razer HyperSense haptic technology</li> <li>• Activate THX Spatial Audio for pinpoint positional sound and immersion</li> <li>• Experience advanced Razer Chroma RGB lighting capabilities via Chroma Studio</li> </ul>
<b>TECH SPECS</b>	
<b>Headphones</b> <ul style="list-style-type: none"> <li>• Frequency response: 20 Hz – 20 kHz</li> <li>• Impedance: 32 Ω @ 1 kHz</li> <li>• Sensitivity: 96dBSPL/mW@1KHz by HATS</li> <li>• Drivers: Customized Dynamic 50mm Driver</li> <li>• Inner ear cup diameter: 62 x 42mm</li> <li>• Connection type: 2.4GHz wireless and 3.5mm</li> <li>• Cable length: 1.3m / 4.27ft</li> <li>• Approx. weight: 368g / 0.81lbs</li> </ul>	

- Oval ear cushions: Full-ear coverage with cooling fabric and plush leatherette, for comfort and optimized haptics

#### **Microphone**

- Frequency response: 100 Hz – 10 kHz
- Signal-to-noise ratio:  $\geq 60$  dB
- Sensitivity (@1 kHz):  $-42 \pm 3$  dB
- Pick-up pattern: Unidirectional

#### **On-earcup Controls**

- Volume up and down
- Mic mute on/off toggle
- Haptics intensity levels

#### **Audio Usage**

- Wireless audio usage: USB-A Dongle
- Wired audio usage: 3.5mm analog
- Surround sound: Only available on Windows 10 64-bit

#### **Haptic Drivers**

- 1 in each cup
- Frequency Response: 20-200Hz
- Maximum Generated Force: 4.3G

#### **Battery Life**

- Up to 44 hours (with Haptics and lighting off)
- Up to 11 hours (with Haptics and lighting on)

### **FAQs**

#### **Q: What is Razer HyperSense?**

A: Razer HyperSense is a haptic technology that's been integrated with the audio drivers in each earcup. Able to transform audio into touch-sensory feedback (i.e. vibrations), this technology effectively allows you to feel what you hear in-game.

#### **Q: Does Razer HyperSense require any additional downloads?**

A: No. Razer HyperSense works out of the box with any game, music, or movie without requiring any additional software or integration.

#### **Q: Does Razer HyperSense work in wired mode?**

A: Yes. Simply turn on the headset to power up the internal haptic drivers, and Razer HyperSense will work in the same way with devices you've connected to via the 3.5mm cable.

#### **Q: Can I adjust the feedback level of Razer HyperSense?**

A: Yes. You can fine-tune the intensity level of Razer HyperSense through Razer Synapse 3, or conveniently adjust it using an on-headset button that cycles through off, low, medium, and high.

**Q: What kind of mic does the Razer Kraken V3 Pro have?**

A: The Razer Kraken V3 Pro has a detachable Razer™ HyperClear Cardioid Mic, which is tuned to have a more focused voice pick-up area by suppressing background noise.
